

To Mrs. E. P. Nichol.

Germantown Philad<sup>a</sup>

April 20 67

My Dear Friend

26

A letter from  
Elij. C. Stanton asking me  
to write letters to England  
"that our men get answers,  
by they" - and saying  
"Remember to my Pease  
to whom give my love,  
pleasant it was to be so  
kindly remembered by her."

As the papers will tell  
that we two are busy on  
this side of the water on  
the "Woman's Question," how  
deafening is it not in the advance  
that has been made since  
in '40 the ~~it was~~ Ladies  
were not admitted as equals  
in the "World's Convention."  
I fear, however, there is, not

Wm. of Cambridge & cheer

By this mail - will be sent the Henry Geo's  
Report - It is valuable as a record of what  
the country has done the past year. How  
much the Society has helped is a question.  
Some of our good friends think it important  
to keep up the old machinery, I do not  
though it is always pleasant to meet such  
dear friends.

I would gladly write  
the more at length in return for thy  
welcome letter, but time fails me.

My cousin Abby Kimball would send  
love did she know of my writing - My  
love to dear Eliza Whigham & her mother.

Thine very affectionately  
Sarah Pugh

power enough - even yet to  
admit them as delegates  
to the Paris Conference this  
summer. We shall watch  
them with interest. I hope  
some will be sent from Eng.  
I know of none going from  
here. Our friend Henry Green  
has no prospect of going tho'  
the papers announce it so  
positively. When you can  
send two thousand names  
from Edinburgh to Parliament  
- as Henry Estlin writes, we  
you have done - and the  
"Very Rev. H. C. of [unclear]"  
can lead your Committee  
on the "Emancipation of Women."  
There is much encouragement  
to work on till the desired  
end be gained. We have  
some very earnest workers  
here, Lucy Stone, Lily Stinson  
Susan B. Anthony - are, now

in the field, as well as  
many others. Lucy Stanton  
has engaged a housekeeper  
that she may be able to devote  
herself for a few months to  
the work in their State, where  
a Convention is to hold for  
amending the Constitution.  
Lucy Stone & her husband  
have gone to Kansas where  
the field is 'white' unto the  
harvest' of equal rights  
for all irrespective of colour  
or sex. Our dear Lucretia  
Mott is of course deeply  
interested - but this winter  
she has been very feeble is  
now recovering from an  
attack of pneumonia - was  
able on the 10th to receive  
her children, grand children &  
great grand children on the  
Fifty fifth Anniversary of their Mother's!

Lucy Stone & her husband
